Description

Self-Tapping Threaded Inserts
The H.C.B-A2349 Self-Tapping Threaded Insert Kit (29 PCS) is a comprehensive set of tools designed for the repair and restoration of damaged threads in various materials. The kit includes 29 pieces of self-tapping threaded inserts, each with a unique design for optimal performance. The inserts are made of high-quality steel and are available in various sizes and types to suit different applications. The kit is presented in a convenient blue plastic tray, making it easy to store and transport. This kit is an essential tool for anyone working on engine repair and restoration, ensuring that damaged threads are restored to their original strength and integrity.
