Description

DESCRIPTION
This tool is used to align the clutch disc on the input shaft of the gearbox. It is a universal tool that can be used on both single and double disc clutches. The tool consists of two long, silver-colored metal rods with black adjustment bands. The bands are used to adjust the length of the tool to fit the specific clutch disc. The tool is made of high-quality metal and is designed to be durable and long-lasting. It is a must-have tool for any truck repair shop.
