Description

DESCRIPTION

The H.C.B-A6051 BMW Sealant Plunger Tool is a specialized tool used for applying sealant to the body of a BMW vehicle. It is designed for use on various BMW models, including the 1 Series M, 128i, 135i, 135is, 325i, and 325xi. The tool features a black handle and a long threaded rod with a knurled end for grip. The threaded rod is used to apply sealant to the body of the vehicle, ensuring a proper seal.

FEATURES

- Black handle
- Long threaded rod
- Knurled end for grip
- Threaded section for application
