Description

DESCRIPTION
The H.C.B-A6078 Hub Nut Socket is a specialized tool designed for the removal and installation of front axle hub nuts on Mercedes-Benz G-Class vehicles. It features a robust, black, cylindrical body with a hexagonal base and a central opening for the hub nut. The tool is made of high-quality steel and is finished with a black powder coat for durability and corrosion resistance. It is compatible with the standard hub nut used on the Mercedes-Benz G500 and G600 models.
